

47. Umkomuleysi. Saga af 12 ára gömlum Reykjavíkurdreng.

3 blöð qto.

*[Faint handwritten notes in the top left corner, possibly bleed-through from the reverse side.]*

*[The main body of the page contains several paragraphs of very faint, handwritten text in Icelandic. The text is largely illegible due to fading and bleed-through. It appears to be a narrative or a collection of notes related to the title 'Umkomuleysi' (Immortality).]*
